# OUR WORLD CLASS QUALITY PRODUCTS

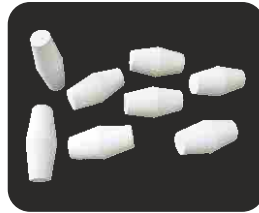

## Polybutadiene Rubber Ball

**Size**  
16mm  
24mm  
26mm  
28mm  
30mm  
32mm  
35mm  
40mm  
50mm  
63.5mm

RTM Innovative Designed Polybutadiene Rubber Ball Sieve Cleaners used for cleaning & separating of All Powders and specially Grain Flours and Oil Seeds etc. Our ball cleaners are sorobust & efficient that these balls are also competent in the sieving process of abrasive materials viz. minerals, metal powders, and construction materials as they have high abrasion resistance and minimal wear ratio.

## Barrel Shape Rubber Cleaner

Length 35mm Dia.: 17 mm

It is made up of 100% rubber which is designed as a process aid for plan sifter sieve cleaning process.

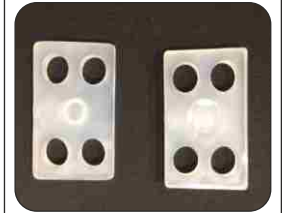

## Polybutadiene Cubical Shape Rubber Cleaner

20x20x20 mm

Made of elastomer with extra ordinary tensile strength and compression set used in destonner machines.

## PU Pad

Standard Size

Specially designed for freely interacting and sliding on the plan sifter sieving mesh

## Rubber Cap with Lock / Without Lock

100 mm | 110 mm | 120 mm

It has been designed from a special elastomer with extraordinary capacity, high durability, and superb tear strength.

## Lift Rubber Sleeve

75mm | 88 mm | 100 mm | 113 mm

Made of special elastomer with excellent gripping capacity for viewing glass. Its Tensile Strength is extraordinary.

## Buhler Compatible Anti-Vibration Mount (AVM)

96 x 96 mm

Highly structured Rubber compound & exhaustive process technology for process engineering.

## Anti-Vibration Mount (AVM) / Hollow Spring

75 x 100 mm | 90 x 100 mm

With extra ordinary tensile strength and compression set, resulting in very long service life.

## De-stoner Sleeve

150 mm | 265 mm

Used for extraction of stones from De-Stoner Machine. RTM Promises to provide you extra strength and long life Rubber Sleeve/Bag.

## Air Lock

125 | 150 mm | 190 mm

It has been designed from a special elastomer with an extraordinary capacity for viewing glass with superb stretching strength.

## Rubber Ring

100 mm | 190 mm

It has been designed with high Durability, Good Tensile & Elongation, Good Tear Resistance and Heat Resistance upto 100°C

## Suction / Vacuum Cup

Silicone / Natural Rubber / Neoprene / EPDM / TPR / Viton / Vinyl & all Elastomers.

Made up of 100% rubber with extra ordinary gripping strength, unlimited shelf life at room temperature. Functional Parameters are second to none.

## APPLICATIONS

Plan Sifter

De-Stoner

Vibro Sifter

Classifier

# Comparative Study of RTM Rubber Balls, Triangular Brush & Cotton Pad

Description	Other Brush & Cotton Pad	RTM Balls	RTM Balls Benefit
Resilience	70%	87%	21.5%
Toxicity	Non-Food Grade	US FDA & EU Regulations Compliant	Food Grade Material
Durability	60 Days	270 Days*	210 Days
Maintenance	6 times	< 2 times	200%
Production	1000 Kg/hr.	1200 Kg/hr.	20% /hr.
Shelf Life	365 Days	7300 Days	Vastly
Quantity Usage/Year	6000 nos.	1333 nos.	Immense saving

\*All RTM Engineering Products exceed in Performance & Service Life than other similar Producer.

## MANUFACTURING EXCELLENCE

## INDUSTRIES WE SERVE

Flour Mills

Rice Mills

Maize Mills

Oil Mills

Guar Gum

Spices Ind.

Pulse Mills

Coffee Industries

Salt Industries

Sugar Industries

Pharmaceutical

Minerals

Wine & Beer

Separator

De-Stoner

Rotary Airlock Valve

## EXCLUSIVE QUALITY RUBBER BALL SIEVE CLEANERS

We also Customize in Polybutadiene, Neoprene, Natural Rubber, EPDM & Silicon etc.  
Our Innovative Designed Polybutadiene Rubber Ball Excels in Performance Efficiency & Long Service Life.
